Dear Sir:

Subject: Sponsorship

As CEO of such a large company such as USN, we realize that you must be bombarded with requests for donations and sponsorships. We believe our cause is of great need. At Crazy Cow High School we are trying to keep up with the times and have begun developing a brand new state of the art multimedia laboratory. Our multimedia laboratory will be used for the production of promotional and school videos, graphics and animations for the school website, as well as graphics and photographs for the school magazine. Unfortunately lack of funding has left us approximately R30,000 short of the required amount. We are not asking you to help fund the further development of our lab but just for a small donation of two of your value packs valued at R1,500. We are confident that by raffling these two value packs we will be able to raise the money required to finish our lab. We hope to be hearing from you in the not too distant future.

Thank you,

David Wilson
Grey High School
