

Academic Software Editions

- the way of the future

The wonders of word processing...

The wonders of word processing are limitless. The skill of being able to use a computer quickly and efficiently is priceless in today's world.

Everyone should ensure that they keep up with the technological advancements.

What skills will you learn?

The benefits are endless. Some of the vital skills you will learn are:

- ♣ Desktop Publishing
- ♣ Mailmerge
- ♣ Web Page Design

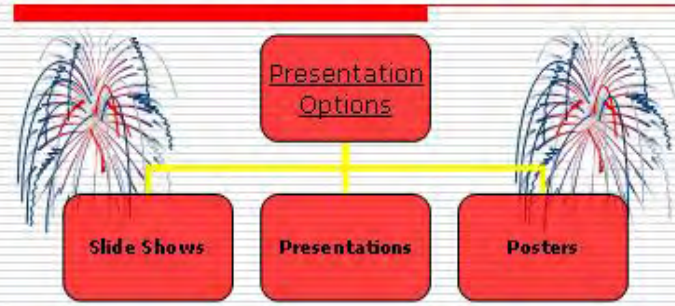

It is advised that children are taught young to improve software usage skills and confidence when it comes to technology.

Recommended for Children:

- Schools with adequate software editions.
- A PC available within the home.
- Learning based PC games and tutorials.

Presentation Capability

How to use templates and colour schemes...

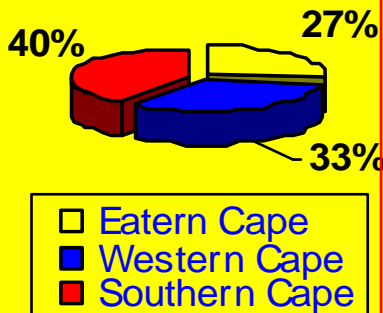

To Change the colour scheme...

♣ Select 'View':

- ♣ Master
- ♣ Slide Master
- ♣ Edit Slide Master

% of Schools with Adequate Software

Software Editions Spreadsheets Capability

Software within Schools in Southern Africa

	No. of Schools	No. that have adequate software	No. that have inadequate software	% Adequate Software	Adequate % Inadequate %
