Seaforth Introduces Laptops

Seaforth College is currently looking at introducing laptops to our school for the 2009 year, we are very excited and feel that laptops will give students an edge on their work. They will each receive a laptop which they will carry around from class to class and be able to link the internet and the server which will aid them in giving teachers work while being in different classes. They will however not be able to take the laptop home and will have to use a flash stick to take data from their laptop home. We feel this is a big step for Seaforth and look forward to it in the New Year.

Sports Results

1) Yesterday Seaforth College Boys and Girls first hockey teams played against Clifton College at Clifton. They both played very well and managed to secure victories all round. The final Scores were:

- Boys 13-0
- Girls 10-0

2) Well done to both the teams and keep up the good work. We wish you good luck for the game tomorrow and are assured that you will hold the school's name up.

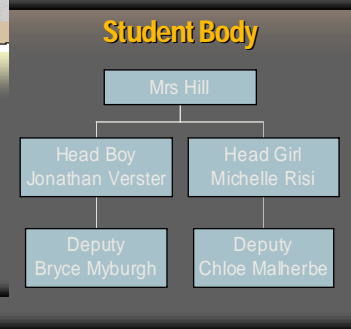

Top 5 in the Goals for 2008

- Michelle Risi
- Jonathan Verster
- Abigail Dunlop
- Chloe Miller
- Chloe MaHerbe
