## The Seaforth Tides

Waves of change

Seaforth College has a yearly magazine which we all wait for in anticipation each year. However, it seems that the printer enjoy keeping as in suspense as no matter how early it is submitted, the magazines always arrive behind schedule. The printers website is <http://www.headpeeps.com/>

### Why does this happen?

The printers seem to take on too many jobs that disadvantage their production time. The magazines often have to be sent back due to errors made in the printing which slows down the process and the Seaforth College family have to be in suspense and eager to the the finally copy of the long awaited famous Seaforth Tides.

### We can:

- Find new printers
- Send the magazine earlier and give them an early deadline.

1. The printers are taking advantage of our good nature and understanding and are assuming they are the only printers that we will ever use. We need to warn them.

2. We may need to make deals with this issue so us on time. We also must printing so that we are quality printing.

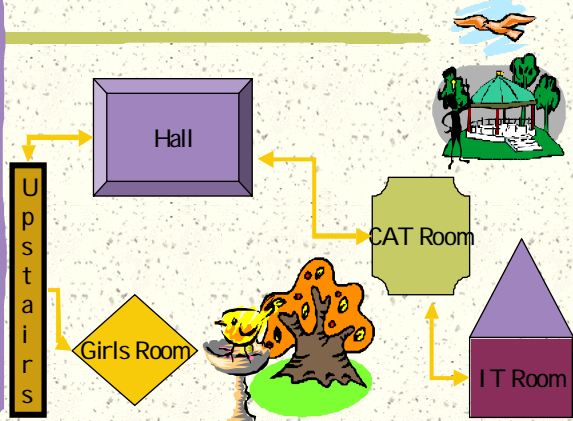

sure that Mr Watson that our magazines reach check the quality of the not paying for inferior
